Product Name: Wardrobe Sliding Drawer Lock Box

Size: Width 480mm x Depth 400 mm x Height 150 mm

Working Voltage: USB 5V DC

(Includes removable Li-ion 18650 battery)

Product Code: BWA-L-5

Weight: 12 - 15 kg

Start Up Mode: Motor Driver

Instructions

1. Default Password is *1234# To change the password, please input *#old password#new password#. Lightning up of "OK" key confirms that your password has been changed successfully. If not, please try this step again.

Note:

- a) Password has to be between 4 to 6 digits long.
 - b) If you have reset the password, please confirm that the new password works well before you close the drawer. For example, if you want to change the password to 8888, please input *#1234#8888#. When the "OK" button lights up, the password has been changed successfully and from next time onwards, input *8888# to open the drawer.
 - c) If you input incorrect password, the system will alarm 3 beeps. Also, the "ERR" indicator will light up 3 times.
 - d) With no keyboard operation for 10 seconds, the drawer goes into power saving mode automatically.
2. To set another password, please input *#22#. After the beep, input the new password and press #.
 3. To adjust the volume, input *#33#. After the beep, press 2 to increase the volume or 8 to decrease the volume.

Note:

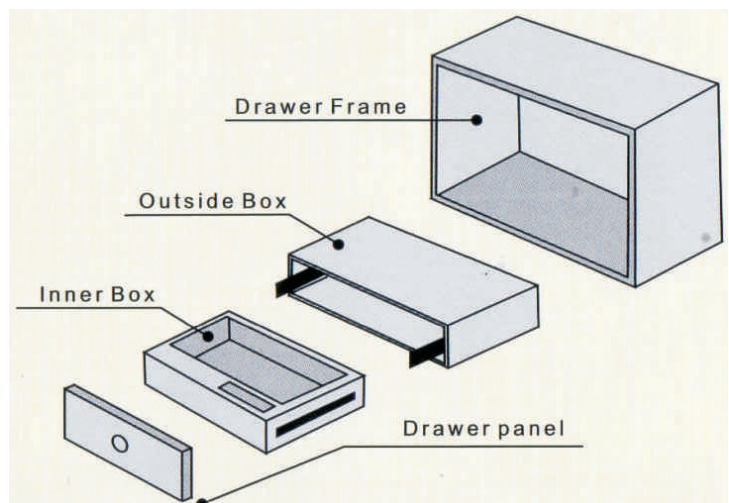

1. If wrong password is fed 3 times continuously, the system alarm sets off for 20 seconds till the correct password is fed.
2. The product is charged by a Micro USB cable. "OK" indicator displays charging status. Blue indicator means charging and green indicator means fully charged. You can charge it by a phone port or power bank. Do not pull out the drawer while it is being charged or the charging port will be damaged.
3. When the battery is less than 20% "BAT" indicator flashes once every second. Charge the battery at this time.
4. Please remember the password when you operate to Restore Factory setting. If you forget the password, please use the backup key to open the drawer. You can also put a needle in the reset hole for 5 seconds. When "OK" lights up, it indicates that the password has been reset to 1234.
5. Please press restart button if there is no response on touching the keyboard. Wait for 10 seconds for it to operate.

Installation & Maintenance

1. Please use clean and dry clothes to clean the product. Do not use any chemicals.
2. Please keep the drawer away from water. Also keep the sliding rail dry.

Installation Steps:

1. Open the outside package and take the password drawer out.
2. Input factory default password. Please input *1234# to open the drawer.
3. Take the inner box out along with user manual and emergency key. Do not ever put the manual key into the drawer.
4. Fit the outside box inside the closet.
5. Install the drawer panel and then put the inner box in. Please refer to installation pictures below.

Tips

1. Please read the user manual carefully before using the product. Take the emergency key out to avoid forgetting password.
2. If you have followed the user manual to operate but still can not open the drawer, please contact your dealer or BTL for after sales service. Contact information of Agraeta Technik Pvt. Ltd. (BTL) given below.
3. (BTL) is not liable for any economic loss or related legal responsibility for the items kept inside the drawer.
4. Please use International Standard Charger (CCC/UL/TUA certified, Output 5V 0.5A or 5V 1A or 5V 2A) for charging. If it is damaged due to usage of any other charger, BTL does not bear any responsibility.
